Macintosh Movie Makers Rejoice: A Software Package for Movie Credits is Now Available
Introducing VideoTagger™ 2.0 for Macintosh: The Full-Featured Enterprise Software Product
Designed To Create Movie Titles

March 8, 2009 (Hoboken, NJ). ElectricHappiness.com announced today that **VideoTagger™ 2.0 Premium**, a revolutionary enterprise software application for creating movie credits, has been released for Macintosh computers. **VideoTagger™ 2.0** an excellent companion to any video editing program, breaking ground in an area that traditional video editors have ignored; Providing a powerful and simple to learn platform for creating rich, full featured movie titles for any movie destination.

VideoTagger™ 2.0 Premium Edition is available for both PC and Macintosh computers and can be downloaded from www.ElectricHappiness.com.

Electric Happiness was founded with the goal of providing the first full-featured software product for creating professional movie credits that could be used by anyone from directors and video editors, to the casual movie creator. The premium edition of VideoTagger™ 2.0 is available for PC and Macintosh computers, and a free PC edition can be downloaded from ElectricHappiness.com. The latest version of VideoTagger™ for Macintosh was released on March 8th, 2009.
