Movie Credits Finally Gets a Software Solution That It Deserves  
Introducing VideoTagger™ 2.0: The Only Full-Featured Enterprise Software Product Designed  
To Create Interesting and Unique Movie Credits

March 2, 2009 (Hoboken, NJ). [ElectricHappiness.com](http://ElectricHappiness.com) announced today that **VideoTagger™ 2.0**, a revolutionary enterprise software application for creating movie titles, has been released for Windows computers available in both premium and free editions at [www.ElectricHappiness.com](http://www.ElectricHappiness.com), a Macintosh 2.0 version will be released on March 8th. **VideoTagger™ 2.0** is the Enterprise software solution that enables non-technical people to create stunning beginning and end titles for movies and videos. This groundbreaking and easy-to-use product is ideal for any filmmaker, from seasoned directors and professional video editors to casual movie creators, and YouTubers.

Directors are hailing **VideoTagger™** as a fantastic necessary addition to the filmmakers digital tool set. People are talking, here is what they have shared with us:

"VideoTagger™ is Literally Lightning Years Better Than Any Other Software that I Have Used to Make Movie Credits."

"VideoTagger™ has Simplified the Entire Process (of creating movie credits). It's a Great Movie Making Tool and a Must Have for Video Producers!"

"(VideoTagger™) should be a required addition for anyone using Final Cut Pro, Or Any Other Video Editor For That Matter"

"Movie Editors Simply Weren't Designed For Making Titles, Thank You for VideoTagger™ It Really Made Finishing Off My Movie a Lot Easier"

**VideoTagger™ 2.0** has been enhanced to:

- Show immediate on-screen modification updates including text, font, and graphic changes
- Alter image sizes in each section - allowing graphics to be enlarged or reduced in size
- Users can now use various themes to set to look and feel of VideoTagger™ 2.0 to their preference
- Blazing fast movie creation process
- Quicktime is no longer required on the users system

In addition, **VideoTagger™ 2.0** still contains the features that originally made it great such as:

- An on-screen preview that updates as modifications are made
- Ability to create numerous sections of movie credits
- Selecting whether each movie credits section will scroll, or appear as a slide
- Applying an appropriate look and feel from a variety of on-screen layout options
- Choosing type of information to display: Graphics, Characters roles and names, Contributor names only or Songs
- Customizing the fonts and font size for each displayable text item
- Selecting whether or not to include a customized image in the section
- Enter text that will appear on-screen in a familiar table format

The free version of VideoTagger™ 2.0 is an excellent way to be introduced to the product, allowing users to see the full power of the product before upgrading to the premium version. The free version is also available at [www.ElectricHappiness.com](http://www.ElectricHappiness.com).

Electric Happiness was founded with the goal of providing the first full-featured software product for creating professional movie credits that could be used by anyone from directors and video editors, to the casual movie creator. The premium edition of VideoTagger™ 2.0 is available for PC, and a free PC edition can be downloaded from ElectricHappiness.com. The latest version of VideoTagger™ for PC was released on March 2nd, 2009.
